Dear Mr. Thomas,

My name is Eddie A. Miller. I have been farming properties in and around Bexar County, Texas for the last 45 years. Due to the existing homes which exist on the property circled in red ("red property"), I do not think it would be practical to farm the property circled in blue ("blue property"). Trying to apply pesticides to the blue property would be unsafe for a pesticide applicator and the residents already living on the red property.

Sincerely,

Eddie A. Miller
