Ref: ME00455  
Application to Convert Base to Irrigation  
Groundwater P109-384 (29.35 A.F.W)

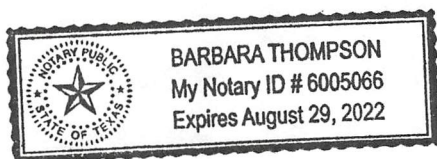

My state permit, No. 0749476, is to apply pesticides. I have been asked to farm and apply pesticides to said property but said land is no longer practicable to farm because of development on the land. If I apply pesticides, there is a potential to compromising the health and safety of the persons occupying said land or the homeowners next door both east and west. There is a sales/construction/office on site with lots of people and heavy equipment and trucks loading topsoil. I will not farm or apply pesticides to the property as it is not safe.

Kyla S. Burell, President of  
Medina Valley Land & Cattle, Inc.

STATE OF TEXAS )

COUNTY OF MEDINA )
