TO: Omar Garcia

FROM: Juan David Flores

Ref: ME00455

Application to Convert Base to Irrigation  
Groundwater P109-384 (29.35 A.F.W)

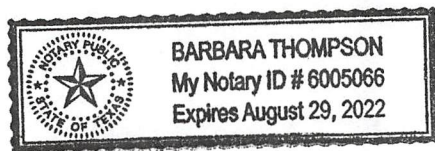

My name is Juan David Flores and my private pesticides applicator license number is 0451471 from the Texas Department of Agriculture. I will not farm or apply pesticides to the property referenced above because houses are to the east and northwest. The wind would blow pesticides towards the houses and have a potential to compromise the health and safety of the neighbors. It would also make it very unsafe for the construction people and truckers on the property. Everyone would be in close proximity to the pesticides. Also I would not work in a Quarry.
