

EDWARDS AQUIFER AUTHORITY
State of Texas

IN THE MATTER OF THE FOLLOWING)
APPLICATION TO CONVERT BASE IRRIGATION)
GROUNDWATER:)

P100-149)
(BE00053))
Air Force Village II, Incorporated)

FINAL ORDER GRANTING APPLICATION
TO CONVERT BASE IRRIGATION GROUNDWATER

ON THIS DAY CAME ON TO BE HEARD the above-styled and numbered Application to Convert Base Irrigation Groundwater (“Conversion Application” or “Application”) of Air Force Village II, Incorporated (“Applicant”). As set forth below, the General Manager of the Edwards Aquifer Authority (“EAA”) issued notice of his proposed action on the Conversion Application. The Board of Directors (“Board”) of the EAA, after having reviewed and considered the summaries of the evidence for the Conversion Application as contained in the materials in the Board Packet, the arguments and presentation of the General Manager of the EAA, and the arguments and presentations of the Applicant, or their representatives, and other applicants or permittees, or their representatives, who may have appeared before the Board, is of the opinion and finds that:

1. The facts necessary to support the General Manager’s proposed action to grant the Conversion Application have been established by convincing evidence; and
2. The General Manager’s proposed action is entitled to prevail with reference to the above-styled and numbered application.

Accordingly, the Board is of the opinion and finds that the Conversion Application should be **GRANTED**. In support of this Final Order, the Board makes its Findings of Fact and Conclusions of Law as follows:

FINDINGS OF FACT

1. On January 31, 2001, Air Force Village II, Incorporated, was granted Initial Regular Permit P100-149 (BE00053) by the EAA in the amount of 400.000 acre-feet/year (“AF/yr”) (200.000 AF/yr Base Irrigation Groundwater (“BIG”) and 200.000 AF/yr Unrestricted Irrigation Groundwater (“UIG”)) based on the irrigation of 200.000 acres of land out of a 304.044-acre tract during the historical period (June 1, 1972 – May 31, 1993).

2. On April 14, 2016, the Applicant filed a Conversion Application with the EAA at the official business offices located at 900 E. Quincy, San Antonio, Texas. Applicant seeks issuance of an order granting the Conversion Application by converting 200.000 AF/yr of BIG to UIG.

3. After receipt of the Conversion Application, the General Manager of the EAA conducted an initial review of the Application for administrative completeness.

4. By letter dated May 13, 2016, the General Manager notified the Applicant that he had determined that the Application was administratively complete.

5. After determining that the Conversion Application was administratively complete, the General Manager conducted a technical review of the Application for the purpose of determining if the Application should be granted or denied, in whole or in part.

6. After completing the technical review of the Conversion Application, the General

Manager concluded that he should recommend to the Board that the Application be granted in whole.

7. In conjunction with the proposed action, the General Manager prepared a Technical Summary.

8. On October 13, 2016, Applicant waived the requirement that the General Manager provide 30 days' written notice by United States mail to Applicant stating a technical review of the Conversion Application was complete, and providing Applicant with a copy of the proposed action and Technical Summary in support thereof.

9. The Docket Clerk of the EAA scheduled before the Board a presentation by the General Manager on the Conversion Application, his proposed action, and the proposed issuance of a Regular Permit in accordance therewith. The presentation occurred at the regular meeting of the Board held on November 8, 2016, at the official offices of the Edwards Aquifer Authority, 900 E. Quincy, San Antonio, Texas. Notice of public meeting for this meeting was duly and properly posted in accordance with Chapter 551, Texas Government Code. Additionally, an agenda item that is the subject of this Final Order was duly and properly listed in the notice of public meeting.

10. The Conversion Application was, contemporaneous with its receipt, affixed with a "date stamp" by the EAA to the front page of the Application indicating its date of receipt by the EAA.

11. The Applicant paid the application fee of \$25 at the time the Conversion Application was filed with the EAA.

12. The Applicant is not delinquent in the payment of any fee due and owing to the

EAA, including but not limited to aquifer management fees.

13. The Applicant has filed with the EAA all applicable reports.

14. The place of use set out in Initial Regular Permit P100-149 (BE00053) was irrigated land during the historical period. A description of the irrigated lands is as follows:

The tract(s) of land more fully described in Special Warranty Deed dated 8/9/94 as recorded with Clerk as Document # 94-0163262 Volume 6197 Pages 967-971 Official Public Records, Bexar County, Texas

15. A change in land use has occurred relative to the historically irrigated lands constituting the place of use set out in Initial Regular Permit P100-149 (BE00053) such that these lands are no longer practicable to farm. First, a review of appropriate mapping and GIS data bases shows that these lands are located within the City of San Antonio's extraterritorial jurisdiction. Second, these lands have been encroached upon by development such that the lands are no longer practicable to farm. Finally, according to the annual water reports for the period 2010-2016 on file with the EAA, these lands have not been irrigated in five or more years preceding and including the date of this Final Order.

16. A map showing the location of the 304.044 acres is attached as Exhibit A.

17. The Applicant was not required to submit a groundwater conservation plan to the EAA.

18. The Applicant is in compliance with the Act, the EAA's rules, other permits, and orders of the Board.

19. The Applicant is the owner of the land to which the BIG that is the subject of the

Conversion Application is appurtenant.

20. The Applicant was not required to submit a new survey of the historically irrigated acres constituting the place of use set out in Initial Regular Permit P100-149 (BE00053).

CONCLUSIONS OF LAW

1. Because the Conversion Application seeks to convert BIG to UIG associated with a Regular Permit issued by the EAA, the Board of Directors of the EAA has jurisdiction over the Application.

2. The Conservation Application meets the requirements of Section 711.342(6)(B)(i)(a), (c) and (ii) of the EAA Rules and, therefore, a change in land use has occurred relative to the historically irrigated lands constituting the place of use set out in Initial Regular P100-149 (BE00053) such that these lands are no longer practicable to farm.

3. The Conversion Application otherwise complies with the Act and the EAA's Rules.

4. Accordingly, the Conversion Application should be granted in accordance with this Final Order hereby converting 200.000 AF/yr of BIG to UIG associated with Initial Regular Permit P100-149 (BE00053) and the historically irrigated lands constituting the place of use for this Permit.

ORDERING PROVISION

IT IS THEREFORE ADJUDGED, ORDERED, AND DECREED that the above-styled and numbered Conversion Application is hereby **GRANTED** as follows:

1. The General Manager is directed to advise the Applicant in writing of the issuance

and effect of this Final Order;

2. When appropriate as determined by the General Manager, the General Manager is directed to prepare an amended Regular Permit reflecting the issuance and effect of this Final Order in the form of the approved Regular Permit form and subject to the Conditions for Regular Permits as may be in effect at the time of the issuance of this Final Order, for presentation to the Chairman of the Board of Directors of the EAA for signature; and

3. The General Manager is directed to make appropriate adjustments, changes, or modifications to the EAA's permits and water accounting database consistent with the issuance and effect of this Final Order.

PASSED AND APPROVED BY THE BOARD OF DIRECTORS OF THE EDWARDS
AQUIFER AUTHORITY THIS 8TH DAY OF NOVEMBER, 2016.

LUANA BUCKNER
Chairman, Board of Directors
Edwards Aquifer Authority
