MEMORANDUM

To: Board of Directors

From: Roland Ruiz
General Manager

Date: September 12, 2017

Subject: 2018 Proposed Operating Budget

I am pleased to present staff's proposed budget for 2018 for your review and consideration. This budget provides funding for Edwards Aquifer Authority (EAA) operations and programs in support of our mission to manage, enhance, and protect the Edwards Aquifer as directed by the Texas Legislature through the EAA Act (Act). This budget supports two programmatic areas: a General Fund of \$17.6 million in projected expenses, supported primarily by revenue generated through the assessment of a general aquifer management fee (AMF) of \$42 per acre-foot; and an Edwards Aquifer Habitat Conservation Plan (EAHCP) Fund of \$18.8 million in projected expenses, supported primarily by revenue generated through the assessment of a \$42 per acre-foot program AMF. Collectively, this makes for a \$36.4 million comprehensive budget funded by a combined aquifer management fee of \$84 per acre-foot, which remains unchanged since 2012. It is important to note that in addition to AMFs, some revenues are generated through collections related to the settlement of compliance matters. These funds are not used to meet the operational requirements of the EAA. Instead, the Board has designated this revenue to be set aside in a Conservation/Aquifer Protection Fund to provide funding for future and/or on-going projects and programs related to the conservation and protection of the Aquifer.

Approximately 38.4% (\$14 million) of the \$36.4 million comprehensive budget is projected to be reinvested into program initiatives that serve the greater good of the region and the constituents we serve. These program initiatives, diagramed below, are discussed in detail later in this document.

Constituent/Community Reinvestment 2018

EAA GENERAL FUND

The proposed General Fund budget includes \$15.8 million in revenue and \$17.6 million in expenses (including capital outlays for equipment and debt service), representing a decrease of 6.1% and increase of 5.5%, respectively, from 2017. The difference between proposed expenses and proposed revenue will result in a Net Loss of \$1.8 million, before depreciation, and will require the use of General Fund reserves from prior years. Possible utilization of reserves to cover operating expenses is considered during the budget development process. The General Fund operating reserve balance is discussed in detail later in this document.

	Amended Budget FY2017	Proposed Budget FY2018	Variance	Percent Variance
Revenues				
Operating Revenues	\$ 16,698,240	\$ 15,768,790	\$ (929,450)	-5.6%
Grant Revenue	\$ 107,500		(107,500)	-100.0%
Non-Operating Revenues	24,400	28,500	4,100	16.8%
Total Revenues	\$ 16,830,140	\$ 15,797,290	\$ (1,032,850)	-6.1%
Expenses				
Capital Expenses *	\$ 827,000	\$ 708,607	\$ (118,393)	-14.3%
Operating Expenses	15,844,390	16,880,308	1,035,918	6.5%
Total Expenses	\$ 16,671,390	\$ 17,588,915	\$ 917,525	5.5%
Net Income/(Loss)				
(Before Depreciation)	\$ 158,750	\$ (1,791,625)	\$ (1,950,375)	

* Includes both equipment and note principal payments

Revenues

Operating Revenues

General Fund revenues are derived almost solely from the AMF charged to all groundwater withdrawal permit holders. By far, the largest source of EAA revenue is the AMFs paid by non-agricultural (Municipal and Industrial, or M&I) groundwater withdrawal permit holders. In 2018, the AMF rate is proposed to change from \$44 to \$42 resulting in a decrease in General Fund revenue. As set forth in the EAA Act, M&I permit holders pay AMFs based on the amount of groundwater **authorized** to be pumped in a given year. Revenue from this source represents about 98.9% of total General Fund revenues in 2018, based on the \$42 per acre-foot AMF rate. Revenue from agricultural permit holders, who pay \$2 per acre-foot of groundwater **actually pumped** as set forth in the Act, represents less than 1% of the total budgeted revenue.

Non-Operating Revenues

Other non-operating revenue consists of interest income and miscellaneous income. These revenue sources, which represent about 0.2% of total General Fund revenue, are not expected to change materially, as interest rates remain at historically low levels, and miscellaneous income (including application fees) is relatively insignificant.

**Total Revenues by Source
2018**

Expenses

This proposed 2018 General Fund budget represents staff's recommendations to fund the programs and staffing necessary to accomplish the EAA's strategic initiatives and conduct daily operations. Proposed expenditures (operating expenses, capital outlay and debt service) for 2018 total \$17.6 million, representing a 5.5% increase from 2017. In 2018, approximately 56.0% of the budgeted General Fund expenses is associated with employee salaries and benefits. Another 25.1% is proposed for professional and technical services. The remaining categories, which include expenses such as Conservation Grants, Building Debt Service, Supplies, Property Services, Capital Outlays, and Other Services, make up the remaining 18.9% of total expenditures. Specific focus on strategic initiatives related to water quality

and aquifer protection include several new program funding requirements such as: a first responder education program; storage tank regulatory, outreach and replacement assistance; and, an abandoned well awareness, prioritization and closure program. The 2018 budget also includes a cost share agreement between EAA and the City of San Antonio (City) to cover expenses associated with the City's Edwards Aquifer Protection Program. The proposed 2018 budget includes a credit of \$175,000 in cost share reimbursement to be paid by the City to the EAA under this contract to offset some EAA costs associated with annual inspections of properties enrolled in the conservation easement program.

Expenses by Category 2018

General Fund Budget Highlights

Following is a list of Operating Expense highlights proposed for 2018 that are over \$100,000, by project.

• Legal services	\$750,000
• Election services	400,000
• Cost-of-living/Merit adjustments (incremental); new positions (3)	514,000
• Intergovernmental agreements to fund recycled water projects/conservation	397,000
• USGS Data Collection	360,000
• Laboratory services	270,000
• Abandoned well closure/well logging assistance	257,000
• Recharge Dam Maintenance; Seco Creek Control Valve	250,000
• Conservation grants	200,000
• USGS Trinity-Edwards Aquifer mapping project	182,000
• Hydrologic budget studies	180,000
• Precipitation enhancement	163,000
• Legislative services	150,000
• Website design/online service access	145,000
• Cloud data services and storage	137,000

• Interinformational Flow Studies	130,000
• Variable flow biologic monitoring	125,000
• Permits/records management database rebuild	116,000
• Debt service (building note interest expense)	115,000

Capital Budget and Debt Service

The proposed 2018 General Fund operating expenses described above include a capital budget to fund those items that cost more than \$1,000, and have an expected life span of at least one year, as well as the principal payment due on the 20-year general improvement note related to the building consolidation project completed in 2013. (The proposed budget includes a total of \$195,000 in debt service: \$115,000 represents the payment of interest, which is budgeted as an operating expense; \$80,000 is budgeted as a reduction in the note principal.) The 2018 Proposed Capital/Debt Service Budget is approximately 14.3% lower than 2017 Capital/Debt Service Budget. Following is a list of the 2018 General Fund Operations Capital Budget highlights.

• Software (database rebuild)	\$116,107
• Remote Monitoring/Gauging and Telemetry equipment (replacement)	110,000
• Computer hardware (replacement of staff desktops)	100,000
• Water sampling/logging/monitoring equipment	90,000
• Debt service (building note principal)	80,000
• Vehicles (2 replacement)	72,000

Designated Funds

In addition to the EAA's standard operating expenses, funds have been designated to meet specific objectives set forth by the Board of Directors. A summary of each of these designations is provided below. Activities related to the fulfillment of each fund's purpose have been included in the 2018 budget.

Abandoned Well Closure Assistance Fund

The Abandoned Well Closure Assistance Fund was established in 2010 as a funding source to provide qualified, low-income well owners financial assistance to resolve abandoned well compliance matters. By the end of 2017, the EAA will have closed nine abandoned wells as part of a pilot initiative designed to implement and assess the effectiveness of the assistance program. For 2018, this program budget includes \$257,000 to continue assisting qualifying well owners in closing their wells and with well logging.

Conservation/Aquifer Protection Fund

The Conservation/Aquifer Protection Fund receives revenue through compliance settlement agreements and is used for funding future and/or on-going projects and programs related to the conservation and protection of the Aquifer. The EAA does not use any of the revenue derived from compliance settlements for operating expenses or capital purchases. Historically, expenses related to variable flow biologic monitoring during drought or flood conditions at Comal and San Marcos springs have been covered by these funds. The proposed 2018 budget includes \$125,000 to cover such monitoring events, if needed, or other conservation or protection initiatives the Board may designate.

General Fund Operating Reserve

The 2018 proposed budget assumes an ending operating reserve of \$1,858,182, which includes an undesignated portion of \$1,467,167. The ending operating reserve and undesignated operating reserve balances are 10.6% and 8.3%, respectively, of the 2018 budgeted expenses. The EAA's goal is to maintain a minimum undesignated reserve balance of 15% of budgeted expenses for any given fiscal year. However, as discussed previously with the Board, this reserve will fluctuate from budget to budget and in years where there is excess, those funds may be carried over from one budget year to another as a reserve for maintaining stability in the AMF rate. The operating reserve is evaluated each year and, based on future anticipated needs, may move closer to the 15% goal. It should be noted, however, that even within a particular year this reserve will fluctuate as actual revenues and expenses vary.

EDWARDS AQUIFER HABITAT CONSERVATION PLAN FUND

On March 18, 2013, the United States Fish and Wildlife Service (FWS) issued an Incidental Take Permit (ITP) to cover the use of the Edwards Aquifer and associated spring systems. The ITP is supported by the EAHCP and runs through March 2028.

In 2013, the EAA began implementing the EAHCP, which consists of a number of measures designed to maintain minimum springflows at Comal and San Marcos springs for the benefit of protected species, to improve habitat conditions at those springs, and to provide for artificial refugia in the event conditions warrant the removal of endangered species from their natural habitat.

The proposed 2018 EAHCP budget includes \$16.5 million in revenue and \$18.8 million in expenses, resulting in a Net Loss of \$2.3 million, before depreciation, and will require the use of EAHCP reserves from prior years. Possible utilization of reserves to cover operating expenses is considered during the budget development process. The EAHCP reserve balance is discussed later in this document. The EAHCP expense budget is derived largely from Table 7.1 of the EAHCP. For 2018, the EAHCP budget is greater than Table 7.1 by \$896,431.

	Amended Budget	Adopted Budget		Percent
	FY2017	FY2018	Variance	Variance
Revenues				
Operating Revenues	\$ 15,784,400	\$ 16,359,790	\$ 575,390	3.6%
Non-Operating Revenues	70,000	156,400	86,400	123.4%
Total Revenues	\$ 15,854,400	\$ 16,516,190	\$ 661,790	4.2%
Expenses				
Capital Expenses	\$ 30,000	\$ 41,000	\$ 11,000	36.7%
Operating Expenses	22,302,476	18,768,028	(3,534,448)	-15.8%
Total Expenses	\$ 22,332,476	\$ 18,809,028	\$ (3,523,448)	-15.8%
Net Income/(Loss)				
(Before Depreciation)	<u>\$ (6,478,076)</u>	<u>\$ (2,292,838)</u>	<u>\$ 4,185,238</u>	

EAHCP Revenues

Operating revenue to fund the activities of the EAHCP are primarily derived from a program AMF, which is assessed against all M&I permit holders based on the amount of groundwater withdrawal permits authorized for 2018. The program AMF is proposed at \$42 per acre-foot for 2018, an increase of \$2 per acre-foot from 2017. In addition to revenue collected through the assessment of program AMFs, the 2018 EAHCP Program budget includes pledged revenue from other entities. Seven organizations – the Guadalupe Blanco River Authority, Union Carbide, CPS Energy, the San Antonio River Authority, the City of Victoria, the Guadalupe Basin Coalition, and the Nueces River Authority – have pledged their intent to financially assist the EAA in the implementation of the EAHCP. Total revenue from these sources is budgeted at \$736,000 in 2018.

**Total Revenues by Source
2018**

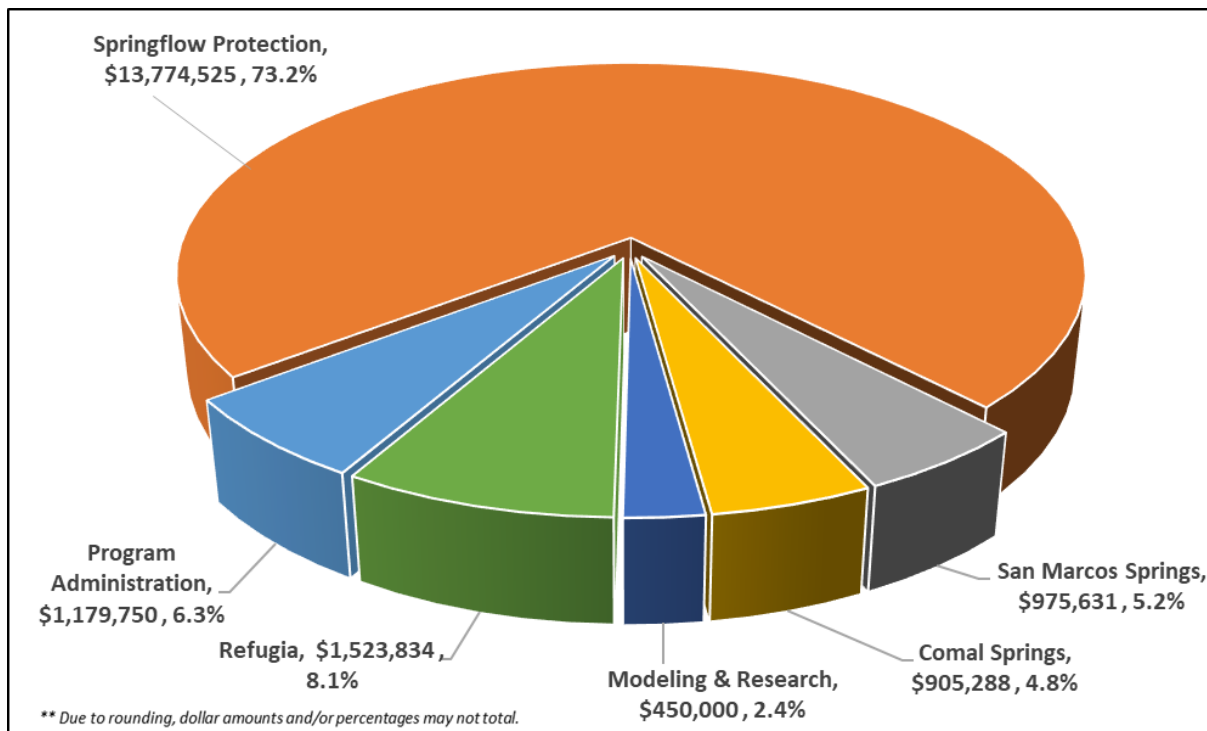

EAHCP Expenses

The proposed 2018 EAHCP Fund budget totals \$18.8 million, a 15.8% decrease from 2017. This budget will fund the conservation measures mentioned below. The Springflow Protection conservation measure accounts for about 73.2% of the EAHCP budget. A major component of this conservation measure is the Voluntary Irrigation Suspension Program Option (VISPO), which is triggered when aquifer levels decline to a certain critical level. Based on current aquifer conditions, it is unlikely that suspension payments related to VISPO will be made in 2018, so the proposed 2018 budget includes funding for VISPO stand-by payments in the amount of \$2.3 million. The proposed budget also includes funding to support the use of the San Antonio Water System's (SAWS) aquifer storage and recovery (ASR) project as another significant EAHCP Springflow Protection conservation measure. Under this program, the EAA acquires Edwards groundwater for the purpose of injecting into the ASR for storage and use during a drought of record. The proposed budget includes \$6.9 million for 2018 ASR lease payments and reimbursement of SAWS associated ASR operational costs. Another component of the Springflow conservation measure is the Regional Water Conservation Program. The proposed budget includes \$4.5 million for payment to SAWS in support of a leak repair program that is estimated to conserve approximately 20,000 acre-feet over the term of the EAHCP. A significant portion of the proposed EAHCP budget will fund various activities and work plans to be implemented by the signatories to the

plan: the EAA, the City of New Braunfels, the City of San Marcos, the City of San Antonio through SAWS, and Texas State University during 2018.

Expenses by HCP Measure 2018

EAHCP Reserves

The proposed 2018 budget assumes an EAHCP ending reserve balance of \$28,997,068. Section 7.1 of the Habitat Conservation Plan anticipates a reserve cap of no more than \$46 million.

Summary

In conclusion, I am confident that this budget for 2018 sufficiently provides for the EAA's strategic initiatives identified by the Board of Directors while demonstrating responsible fiscal stewardship on behalf of the EAA permit holders who largely fund our operation. I want to express my gratitude to EAA staff for its hard work in developing this budget and to the Board of Directors for its steadfast diligence to upholding fiscally sound and responsible standards of management practices at the EAA. If you have any questions, please call me at (210) 477-5143, or Brock Curry, Deputy General Manager, at (210) 477-5146.

EXECUTIVE

EXECUTIVE

EXECUTIVE

The Edwards Aquifer Authority (the “EAA”) is governed by a 17-member board of directors. Fifteen of these directors are voting members, elected from single-member districts. One director is appointed by the South Central Texas Water Advisory Committee (SCTWAC) and one is appointed on a four-year rotating cycle from Medina and Uvalde counties.

The Executive Office consisting of the General Manager, Deputy General Manager, and the Executive Assistant manage all aspects of EAA operations. Additionally, the Executive Office oversees the activities of the EAA’s outside counsel.

EXECUTIVE PROGRAMS	2018 PROPOSED BUDGET
<i>General</i> The General program area accounts for those division expenses not directly associated with a specific operational program, such as salaries and benefits, conferences, training, memberships, and subscriptions.	\$800,723
<i>Board of Directors & South Central Texas Water Advisory Committee (SCTWAC)</i> The board determines EAA policies and hires the General Manager to manage all EAA operations. The SCTWAC is made up of representatives from downstream counties to interact with the EAA when issues related to downstream water rights are addressed.	\$173,500
<i>Legal Services</i> The board hires a general counsel to provide comprehensive legal services regarding all aspects of EAA operations. Executive Office staff provide a centralized, point-of-contact for EAA counsel, and serve as liaison between the board and legal counsel to manage work referred to counsel.	\$841,000
TOTAL EXECUTIVE PROGRAMS	\$1,815,223

ADMINISTRATION & FINANCIAL SERVICES

ADMINISTRATION & FINANCIAL SERVICES

ADMINISTRATION AND FINANCIAL SERVICES

The Administration & Financial Services division serves the entire staff of the EAA by providing all organizational support activities and by ensuring all EAA teams have the supplies, equipment, facilities and technology available to perform their duties. This includes meeting the organization's financial, technological, and human resource needs to keep the organization operating efficiently.

ADMINISTRATION AND FINANCIAL SERVICES PROGRAMS	2018 PROPOSED BUDGET
---	-----------------------------

General

The General program area accounts for those division expenses not directly associated with a specific operational program, such as salaries and benefits.	\$2,477,317
---	-------------

Accounting

The Accounting program conducts all activities associated with payroll, accounts payable, accounts receivable, budget, audits, investment activities, property, casualty, and workers' compensation insurance.	\$293,226
--	-----------

EAA Operations

The EAA Operations program supports the entire organization, by overseeing building improvements, facility maintenance, vehicle maintenance, office equipment purchases and leases, and utilities.	\$701,712
--	-----------

Human Resources

The Human Resources program administers all employee and staffing related activities. These activities include pre-employment and post-employment processing, employee benefits administration, compensation, safety training, staff development, as well as managing the agency's administrative support function and college internship program.	\$302,668
--	-----------

ADMINISTRATION AND FINANCIAL SERVICES

ADMINISTRATION AND FINANCIAL SERVICES PROGRAMS

2018 PROPOSED BUDGET

Information Technology

The Information Technology program area serves to ensure EAA staff has high quality and dependable computer technology available at all times to accomplish its mission. In addition to funding new and replacement computer hardware and software, funding is also included to ensure adequate maintenance of the existing computer network. This program area also works in conjunction with all EAA teams to seek ways to use new and emerging technologies to support their mission through application modernization and increased efficiency, including acquiring 3rd party software solutions by evaluating the technical feasibility and risks of proposed applications.

\$634,342

Procurement & M/WBE

The Procurement program promotes fair and effective purchasing for the entire organization. While overseeing the process for purchasing goods and services, staff strives to meet the EAA goal of awarding at least 30% of its contracts to minority-owned or woman-owned businesses.

\$87,850

Records Management

Through centralized organization and electronic records management software, the Records program area ensures the EAA maintains all records according to an adopted plan. In accordance with this plan, records management staff ensure proper filing, archival, retrieval and destruction of EAA files. Records management staff members also respond to public information requests.

\$23,100

ADMINISTRATION AND FINANCIAL SERVICES PROGRAMS

\$4,520,215

AQUIFER MANAGEMENT SERVICES

AQUIFER MANAGEMENT SERVICES

AQUIFER MANAGEMENT SERVICES

Aquifer Management Services division is responsible for data collection, research, modeling, sampling, monitoring, well-registration and other technical matters related to the aquifer. This division maintains active and historical information for water levels, water quality, recharge, and rainfall across the region. The division also performs research tasks designed to better understand the aquifer system and make refinements to the conceptual model of the aquifer. As the conceptual model is improved, these data are used to refine the EAA's groundwater modeling capability. Aquifer Management Services staff also monitor spills and development activities over the recharge zone, develop and maintain well registrations, and well construction permits and analyze risks related to abandoned wells. Other divisional responsibilities include range management and conservation easement programs, geologic assessments for potential easement properties, and the recharge program.

AQUIFER MANAGEMENT SERVICES PROGRAMS

2018 PROPOSED BUDGET

General

The General program area accounts for those division expenses not directly associated with a specific operational program, such as salaries and benefits, conferences, training, memberships, and subscriptions.

\$3,600,441

Abandoned Well Closure Program

Permanently closing or rehabilitating of abandoned wells is the responsibility of the property owner. Property owners who do not have the means to properly address their abandoned well may apply to the EAA for financial assistance. Financial assistance may be provided, in full or in part, depending on a demonstrated financial need. In cases where the property owner qualifies for financial assistance, EAA contractors will permanently close the well.

\$257,000

Aquifer Protection

Through the Edwards Aquifer Protection Program, the EAA reviews plans for development on the recharge zone, monitors EAA-owned conservation easements, assists other entities with conservation easement acquisitions and monitoring, and conducts educational activities related to aquifer protection. The City of San Antonio (City) and the EAA inter-local agreement provides for a reimbursement to the EAA to perform conservation easement monitoring and geologic assessment services under the City's Edwards Aquifer Protection Program. The City reimbursement (\$175,000) is budgeted in this department as an offset to expenses incurred and for reimbursement of various personnel costs recorded in the General category of expenses above.

\$(97,000)

AQUIFER MANAGEMENT SERVICES

AQUIFER MANAGEMENT SERVICES PROGRAMS

2018 PROPOSED BUDGET

Aquifer Science Research Program

EAA funded research projects are conducted to address questions directly related to the understanding and management of the Edwards Aquifer. Information collected through the program is used to expand our understanding of the aquifer and refine the conceptual model of the aquifer system. Subsequently, these refinements are carried forward to improve EAA groundwater models, allowing for better management of the resource. This group is also responsible for collecting water quality data, stream flow data, and water level data.

\$1,156,200

Groundwater Protection

The Groundwater Protection program is responsible for registering Edwards Aquifer wells within the EAA's jurisdiction. Identification and risk assessment of abandon wells and identification of appropriate remedies for these abandoned wells. The EAA also requires that wells drilled into or through the Edwards Aquifer obtain the appropriate drilling permit, an initiative administered by groundwater protection staff. Maintenance of EAA operated recharge structures is also the responsibility of this program area.

\$463,625

Karst Initiatives

Through the Karst Initiatives program the EAA provides expertise to stakeholders by raising awareness of the unique vulnerabilities associated with karst landscapes and groundwater associated with karst aquifers. This program is working to enhance water quality protection measures through first responder education, professional lecture series, and exploration of innovative technologies. Geologic assessments of potential easement properties, evaluation of karst features, and determination of surface geological properties are other responsibilities that fall under Karst Initiatives.

\$70,750

AQUIFER MANAGEMENT SERVICES

AQUIFER MANAGEMENT SERVICES PROGRAMS

2018 PROPOSED BUDGET

Modeling & Data Management

Groundwater modeling is conducted through the use of computer models developed specifically for the Edwards Aquifer. These models are periodically refined through ongoing research related to the aquifer system. Data management is a part of the overall process of properly collecting, storing, analyzing, checking, and retrieving the multiple data streams the EAA is responsible for.

\$414,200

Range Management

Through the range management program, the EAA provides cost share incentives to landowners who perform brush control (generally Ashe juniper control) on properties located on the Edwards Aquifer Recharge Zone. The EAA works in cooperation with the U.S. Department of Agriculture – Natural Resources Conservation Service to encourage brush control with the goal of improving water quality and recharge potential to benefit all aquifer users. Activities include developing agreements with landowners to formalize brush control and landowner reimbursement details, developing program information documents, inspecting properties, and administering reimbursement payments. Funding for range management research projects is also included in this program area.

\$58,000

Recharge Enhancement Program

EAA staff will evaluate recharge projects proposed by third parties; however, the EAA will continue to refine its groundwater and hydrological models to better represent local conditions prior to pursuing any new EAA-funded recharge project. The Recharge Enhancement program also oversees the EAA's precipitation enhancement (cloud seeding) program to increase recharge and reduce irrigation demand.

\$163,000

AQUIFER MANAGEMENT SERVICES

AQUIFER MANAGEMENT SERVICES PROGRAMS	2018 PROPOSED BUDGET
---	-----------------------------

Remote Gauging

The real-time gauging network consists of a network of automated rain gauges located across the Edwards Aquifer region. Data from the rain gauges are used to assist in recharge calculation, production of rainfall maps, and in a variety of research projects by the EAA and other stakeholders. This network will undergo major renovations in calendar years 2017-2019, including new measurement and telemetry equipment purchases.

EXTERNAL & REGULATORY AFFAIRS

EXTERNAL & REGULATORY AFFAIRS

EXTERNAL & REGULATORY AFFAIRS

The External & Regulatory Affairs division objective is to help effectively manage, enhance, and protect the Edwards Aquifer by administering and enforcing the EAA's rules; by managing production from the aquifer through a comprehensive permitting, metering, and drought management system; by serving as a resource to the regulated community and area stakeholders; by protecting and conserving the aquifer through the Recharge Zone Protection and Conservation programs and by increasing awareness and understanding of the EAA through public education and outreach efforts, including communicating critical issues clearly and concisely, increasing pro-active efforts to build support of the EAA mission throughout the region, developing and distributing educational information, and ensuring good communication with all levels of government. The department includes the EAA's water resources, regulatory affairs, public outreach, and policy departments.

EXTERNAL & REGULATORY AFFAIRS PROGRAMS

2018 PROPOSED BUDGET

General

The General program area accounts for those division expenses not directly associated with a specific operational program, such as salaries and benefits, conferences, training, memberships, and subscriptions.

\$2,468,506

Elections

The Edwards Aquifer Authority Act requires the EAA to hold elections for director positions on the general election day in November of every even-numbered year. EAA directors serve staggered four-year terms.

\$400,000

Intergovernmental Relations

The EAA was created by the Texas Legislature and as such maintains ongoing communications with the legislature and other political and governmental entities. These include, but are not limited to various committees of the House and Senate, including the Edwards Aquifer Legislative Oversight Committee, regional water planning groups, groundwater management areas, and other water-related regulatory or planning entities. This program coordinates activities such as the gathering and sharing of pertinent information with legislative bodies and other governmental entities and assisting in the planning of water management on a regional basis for both groundwater and surface water to help meet future needs.

\$596,416

EXTERNAL & REGULATORY AFFAIRS

EXTERNAL & REGULATORY AFFAIRS PROGRAMS

2018 PROPOSED BUDGET

Meters

The meter program requires meters on all non-exempt Edwards Aquifer wells. The program manages a network of EAA-installed meters on approximately 600 irrigation wells and maintains records for approximately 1,000 industrial and municipal wells. EAA staff checks and reads every meter at least once a year, and more often as appropriate. The meter program gathers and maintains data related to meter registration and groundwater use reporting for the EAA. In addition, the program manages the EAA's Remote Meter and Meter Accuracy Verification programs.

\$163,100

Regulatory Affairs and Water Resources

The Regulatory Affairs program administers several regulatory programs related to groundwater production and protection. This includes regulating the metering and reporting of groundwater withdrawals, the storage of regulated materials, aboveground and underground storage tanks, and the overall, general enforcement of all EAA rules. The program also helps administer the Edwards Aquifer Habitat Conservation Plan Aquifer Storage and Recharge Program.

\$307,850

EXTERNAL & REGULATORY AFFAIRS

EXTERNAL & REGULATORY AFFAIRS PROGRAMS	2018 PROPOSED BUDGET
---	-----------------------------

Regulatory Affairs and Water Resources (Cont'd)

The Water Resources program focuses on the administration of permits and water conservation. This program administers EAA groundwater withdrawal right permits, manages and helps enforce pumping reductions mandated with the EAA Act and EAA rules during times of drought, and helps to facilitate conservation through an EAA groundwater conservation program, which includes an internal grant program. This program also ensures permit holders are in compliance with all EAA Rules for such things as groundwater use reporting. As such, funding for enforcement of non-compliance is also included as part of this program area. The Water Resources program also helps to address increasing water demands, extreme weather variability, and mandated reductions in pumping during critical times. The EAA's Groundwater Conservation Plan and related programs help users improve water-use efficiency.

TOTAL EXTERNAL & REGULATORY AFFAIRS PROGRAMS	\$3,935,872

COMMUNICATIONS & DEVELOPMENT

COMMUNICATIONS & DEVELOPMENT

COMMUNICATIONS & DEVELOPMENT

The Communications & Development division takes an intentional and strategic approach to communication across all EAA operations to enhance greater cohesion, collaboration, and consistency in public information dissemination. Additionally, the division is responsible for the administration of the Edwards Aquifer Conservancy (EAC), including planning and execution of activities focused on building awareness and financial support of the EAA and its mission.

COMMUNICATIONS & DEVELOPMENT PROGRAMS

2018 PROPOSED BUDGET

General

The General program area accounts for those division expenses not directly associated with a specific operational program, such as salaries and benefits, conferences, training, memberships, and subscriptions.

\$597,497

Edwards Aquifer Conservancy

The EAC solely supports and benefits the work of the EAA, including the establishment of programs and practices that protect habitat and species, sustain agricultural practices, promote water conservation, and support the development of water management solutions within the diverse Edwards Aquifer region.

\$0

Public Information

EAA staff strives to build understanding of its mission in the community through public informational campaigns, speakers' bureaus, media relations, social media efforts, and community outreach programs throughout the region. In addition, the EAA's communications team provides as needed support and materials to aid in individual missions of all EAA programs in terms of developing and sharing program-specific information with permit holders, stakeholders, and other interested parties.

\$361,000

COMMUNICATIONS & DEVELOPMENT

COMMUNICATIONS & DEVELOPMENT PROGRAMS	2018 PROPOSED BUDGET
--	-----------------------------

School Education

The EAA education program works with students and teachers in the region to educate them on water-related issues, specifically as they relate to the Edwards Aquifer. Funds are budgeted in this program for educational materials, web development, workshops and field trips for area teachers.

\$136,300

THREATENED & ENDANGERED SPECIES SERVICES

EDWARDS AQUIFER THREATENED & ENDANGERED SPECIES SERVICES

The Threatened & Endangered Species Services division is responsible for administering and managing all activities related to the Edwards Aquifer Habitat Conservation Plan (EAHCP). This includes managing all EAHCP related activities associated with the Edwards Aquifer Authority, the City of San Marcos, the City of New Braunfels, Texas State University, and the San Antonio Water System.

THREATENED & ENDANGERED SPECIES SERVICES PROGRAMS	2018 PROPOSED BUDGET
--	-----------------------------

Program Administration

Program Administration includes all expenses associated with the program management team. This includes salaries and benefits, travel costs, Science Review Panel/National Academy of Sciences expenses, contractual professional services, EAHCP related meeting and miscellaneous expenses.

\$1,179,750

Springflow Protection

Springflow Protection includes those measures designed to protect and maintain spring flow in the Comal and San Marcos spring systems. These activities include the Regional Water Conservation Program, the VISPO, and the SAWS-ASR program.

\$13,774,525

San Marcos Springs

San Marcos Springs expenses include all minimization and mitigation measures as well as monitoring measures in the San Marcos spring system. This includes habitat restoration, invasive plant and animal species control, riparian restoration, water quality protection measures, enhanced water quality monitoring, and biological monitoring.

\$975,631

Comal Springs

Comal Springs expenses include all minimization and mitigation measures as well as monitoring measures in the Comal spring system. This includes habitat restoration, invasive plant and animal species control, riparian restoration, water quality protection measures, flow-split management, enhanced water quality monitoring, and biological monitoring.

\$905,288

EDWARDS AQUIFER THREATENED & ENDANGERED SPECIES SERVICES

THREATENED & ENDANGERED SPECIES SERVICES PROGRAMS	2018 PROPOSED BUDGET
<i>Modeling & Research</i> Modeling and research expenses for 2018 are focused on the applied research program and overhead costs at the applied research facility located at Texas State University. Expenses in this category are designed to support the adaptive management process.	\$450,000
<i>Refugia</i> Refugia includes costs are primarily associated with the USFWS providing refugia operations and research on HCP species at the San Marcos Aquatic Resources Center (SMARC) and the Uvalde National Fish Hatchery (UNFH). Other expenses include annual reporting, and meetings and presentations.	\$1,523,834
TOTAL THREATENED & ENDANGERED SPECIES SERVICES PROGRAMS	\$18,809,028
