Receive report from EAA staff on recent MODFLOW model analyses of EAHCP Conservation Measures.

STAFF RECOMMENDED MOTION:

None. This item is for informational purposes only.

SUMMARY:

The purpose of this agenda item is for the Research & Technology Committee to receive report from EAA staff on recent MODFLOW model analyses of EAHCP Conservation Measures. Staff recently completed analyses using the MODFLOW groundwater model to evaluate the effectiveness of EAHCP conservation measures using updated inputs to reflect how the VISPO and ASR forbearance programs are actually being implemented. Staff will present results showing spring flow responses to a repeat drought of record with all EAHCP conservation measures fully implemented.

M/WBE PARTICIPATION:

This agenda item does not involve the procurement of goods or services by the EAA and, therefore, this section is not applicable.

STRATEGIC PLAN REFERENCE:

This agenda item does not relate to a specific goal within the Strategic Plan, but supports the general EAA mission. This work supports the Strategic Adaptive Management Process described in Section 6.3 of the Edwards Aquifer Habitat Conservation Plan.

FISCAL IMPACT:

None.
