Consider recommendation from the Permits/Enforcement Committee to approve forbearance agreements with Linda Susan Mechler and Carol Jean Mechler; Mary M. Schott and Timothy Wayne Schott; and F & M Santleben Properties, Ltd., for Edwards groundwater withdrawal rights for the Voluntary Irrigation Suspension Program Option in support of the Edwards Aquifer Habitat Conservation Plan, in the total amount of not less than \$244,053.00, and not to exceed \$967,173.00.

RECOMMENDED MOTION:

Move the board adopt Resolution and Order No. 09-22-036 of the Edwards Aquifer Authority Board of Directors to approve VISPO forbearance agreements for permitted Edwards groundwater rights between the EAA and Linda Susan Mechler and Carol Jean Mechler; Mary M. Schott and Timothy Wayne Schott; and F & M Santleben Properties, Ltd., in the total amount of not less than \$244,053.00, and not to exceed \$967,173.00, for the Voluntary Irrigation Suspension Program Option in support of the Edwards Aquifer Habitat Conservation Plan, and authorizing the General Manager to execute the Agreements.

SUMMARY:

The purpose of this agenda item is for the board to consider a Permits/Enforcement Committee recommendation to approve forbearance agreements (Agreements) for permitted Edwards groundwater rights for the Voluntary Irrigation Suspension Program Option (VISPO) in support of the Edwards Aquifer Habitat Conservation Plan (EAHCP). The EAHCP includes several measures intended to minimize and mitigate the impact of the use of Edwards groundwater on federally-listed

threatened and endangered species associated with the Edwards Aquifer. A significant component of the EAHCP as a conservation and springflow protection measure is the use of VISPO as a long-term conservation measure to reduce pumping from the Edwards Aquifer during severe droughts and to help maintain a minimum springflow at Comal and San Marcos springs. The VISPO is a voluntary program through which the EAA is attempting to enroll and annually maintain 41,795 acre-feet of permitted irrigation rights into “forbearance agreements” so that the rights will go un-pumped in years of severe drought, thereby reducing demand on the aquifer at the most critical time. Such demand reduction will improve aquifer levels and protect springflows at Comal and San Marcos springs.

The VISPO enrollees will begin to receive payments in 2024, in two ways according to the following payment schedule. Standby Payment: Every participant in VISPO will receive a “Standby Payment” of \$54 per acre-foot of permitted irrigation rights enrolled no later than March 1st of each year. This payment will be made regardless of whether or not the participant is required to suspend pumping the enrolled rights during that year. Forbearance Payment: If the water level at the J-17 index well in San Antonio is at or below 635 feet above mean sea level (msl) on October 1 of any year, the EAA will notify program participants to suspend the pumping of the enrolled water for the following year beginning on January 1. In years in which pumping of enrolled water is suspended, participants will be paid an additional “Forbearance Payment” of \$160 per acre-foot of permitted irrigation rights enrolled no later than March 1st of that year. The enrolled irrigation groundwater rights may not be pumped for the remainder of that year, regardless of aquifer levels.

EAA received VISPO Enrollment Applications from the following permit holders for a five-year contract term.

Permit No.:	P101-787
Permit Holder:	Linda Susan Mechler and Carol Jean Mechler
Effective:	2024
Enrolled Amt.:	370.000 acre-feet
Option Costs (min/max):	\$99,900.00 / \$395,900.00

Permit No.:	P101-469
Permit Holder:	Mary M. Schott and Timothy Wayne Schott
Effective:	2024
Enrolled Amt.:	225.404 acre-feet
Option Costs (min/max):	\$60,859.08 / \$241,182.29

Permit No.:	P100-963
Permit Holder:	F & M Santleben Properties, Ltd.
Effective:	2024
Enrolled Amt.:	122.900 acre-feet
Option Costs (min/max):	\$33,183.00 / \$131,503.00

Permit No.:	P100-966
Permit Holder:	F & M Santleben Properties, Ltd.
Effective:	2024
Enrolled Amt.:	99.300 acre-feet
Option Costs (min/max):	\$26,811.00 / \$106,251.00

Permit No.:	P104-763
-------------	----------

Permit Holder:	Linda Susan Mechler and Carol Jean Mechler
Effective:	2024
Enrolled Amt.:	86.296 acre-feet
Option Costs (min/max):	\$23,299.92 / \$92,336.72

EAA staff reviewed and confirmed the accuracy of the permit information contained in the applications above. The total amount of groundwater rights secured by the EAA in VISPO Agreements effective in 2024 is now 30,500.020 acre-feet. Attached to this summary is the template of the five-year agreement and a resolution and order that have been reviewed by legal counsel.

At the meeting on August 23, the Permits/Enforcement Committee voted to recommend the board approve this springflow protection program forbearance agreement.

M/WBE PARTICIPATION:

This agenda item does not involve the procurement of goods or services by the EAA and, therefore, this section is not applicable.

STRATEGIC PLAN REFERENCE:

This agenda item helps build and/or create Assuredness in Regulatory Programming - a key objective in achieving the EAA's goals identified in the 2021-30 Strategic Plan.

Acquisition of 41,795 acre-feet of water for the VISPO is required of the Edwards Aquifer Authority to maintain compliance with the Incidental Take Permit issued by USFWS on March 18, 2013. Specifically, this item is related to the obligations of Section 5.1.2 of the Edwards Aquifer Habitat Conservation Plan.

FISCAL IMPACT:

Annual Payments for the forbearance agreement effective 2024 considered here will be disbursed by March 1, 2024 and will range in total from \$48,810.60 (stand-by payment only) to \$193,434.60 (forbearance + stand-by). The 2024 budget will reflect the appropriate amount for VISPO payments following the October 1, 2023 "trigger" date.

The amount of \$48,810.60 for standby payments and \$119,434.60 for suspension payments will be included in Table 7.1 of the EAHCP.

The total estimated cost for VISPO in Table 7.1 of the EAHCP over the fifteen-year term is \$62,580,000.
