File #: AI 13-1376, Version: 2

Consider recommendation from the Permits/Enforcement Committee to approve a conversion of base irrigation groundwater owned by Electric Transmission Texas, LLC, based on a change in land use.

RECOMMENDED MOTION:

Move the board adopt a Final Order Granting Application to Convert Base Irrigation Groundwater for Initial Regular Permit No. P108-161 (ME00355) based on changes in land use submitted by Electric Transmission Texas, LLC.

SUMMARY:

The purpose of this agenda item is for the board to consider a Permits/Enforcement Committee recommendation to approve an Application to Convert Base Irrigation Groundwater to unrestricted irrigation groundwater based on a change in land use. Generally, irrigation Initial Regular Permit (IRP) holders cannot permanently change the place of use or the purpose of use for base irrigation groundwater (BIG) withdrawal rights. However, §711.342 of the EAA Rules allows IRP holders to convert BIG withdrawal rights to unrestricted irrigation groundwater (UIG) withdrawal rights if certain conditions are met under the following two scenarios:

Water Conservation: IRP holders must submit an application that demonstrates the conservation of water after the installation of water conservation equipment, or

Change in Land Use: IRP holders must submit an application to the EAA consistent with §711.342 of the Edwards Aquifer Authority Rules, demonstrating either sufficient physical development of the land or evidence that the land is no longer practicable to farm.

The IRP holder applying to convert BIG withdrawal rights must also provide supporting documentation. In addition to the information provided by the applicant, EAA staff reviews county records and performs a site inspection to verify the BIG withdrawal rights conversion application. In the application presented for consideration, these requirements have been met. Following is a summary of the BIG conversion application based on a change in land use presented for consideration.

P108-161(ME00355) Electric Transmission Texas, LLC.

Regular Permit No. P108-161(ME00355) originally approved by the board on June 29, 2016 is currently permitted for 4.382 acre-feet of BIG withdrawal rights.

On July 22, 2016, the applicant filed an Application to Convert Base Irrigation Groundwater for

Regular Permit No. P108-161 (ME00355) with the EAA. The applicant requested to convert all 4.382 acre-feet of BIG withdrawal rights to unrestricted irrigation groundwater withdrawal rights due to a change in land use based on physical development. EAA staff reviewed this application and determined that the BIG conversion application for 4.382 acre-feet meets the requirements of §711.342 of the EAA Rules. The historically irrigated land that is the subject of the Application has been physically developed such that at least 75% of the land meets the characteristics of development. The technical summary and map showing the place of use are attached to this item.

At the September 27 meeting, the Permits/Enforcement Committee voted to recommend the board adopt a Final Order granting the Application to Convert Base Irrigation Groundwater for IRP No. P108-161 (ME00355) to convert 4.382 acre-feet of BIG withdrawal rights to UIG withdrawal rights. A draft Final Order reviewed by General Counsel is attached for the board's reference.

M/WBE PARTICIPATION:

This agenda item does not involve the procurement of goods or services by the EAA and, therefore, this section is not applicable.

STRATEGIC PLAN REFERENCE:

This agenda item does not relate to a specific goal or action step within the Strategic Plan, but supports the general EAA mission.

FISCAL IMPACT:

None.
