File #: REP 13-1577, **Version:** 1

Receive report from Hakan Basagaoglu, EAA Senior Modeler, on the CASC funded project: Assessing future climate impacts on endangered and threatened groundwater-dependent species in the Edwards Aquifer region using a novel hybrid artificial intelligence framework.

RECOMMENDED MOTION:

None. This item is for informational purposes only.

SUMMARY:

The purpose of this agenda item is for the Science Committee to receive a report from Hakan Basagaoglu, EAA Senior Modeler, and learn more about the modeled impacts of climate change on the Edwards Aquifer dependent endangered and threatened species.
